

## Why I Need To Stay At Home.

Sometimes people get sick. Little things called germs make people sick.

Right now there are some germs called coronavirus that are making lots of people get sick.

It is very important that I stay at home so I do not get sick.

This means that I will not be going to school.

School is closed to help people stay healthy.

My friends and my teachers have to stay at home too.

I might miss my friends and my teachers. This is ok.

I will see them when I go back to school.

In school I learn to read, write, do maths and lots of other subjects.

My teacher will send me work and activities to do at home.

It can be different and sometimes hard to do work at home.

It is important that I continue to learn and try my best.

When I work hard at home, my teachers and my family will be proud of me.

When the coronavirus germs have gone, my family will tell me when I can go back to school. It will be okay.

I need to stay at home.  
School is closed.  
It will be OK.

You might want to cut out the individual boxes and make this resource into a book to share with your young person.
